Sathwik Kondapuram

E-mail: sk67015@uga.edu Ph: +1 (470) 437-7322

EDUCATION

University of Georgia, *Athens, GA* Aug. 2019 – May. 2021

Master's in computer science ***GPA: 4***

JB Institute of Engineering and Technology, Hyderabad, *Telangana, India* July. 2014 – May. 2018

Bachelor of Technology in Computer Science ***GPA: 3.8***

SKILLS

Programming: Python, Scala, Java

Database Technologies: Oracle Database (SQL, PL/SQL), Cassandra, Mongo DB, Neo4j (Cypher).

Web Development: HTML, CSS, JavaScript, Django

Data Science: Data Driven Decision Making, Data Modeling, Machine Learning, Deep Learning

Big Data: Apache Spark, Amazon S3, HDFS, YARN, Kubernetes, Pyspark, Spark SQL, Spark Streaming(Kafka), Flink

Visualization: Qlik Sense, Tableau, Excel

Libraries: Scrapy, Scikit Learn, TensorFlow, Keras, Pytorch, Pandas, Numpy, Matplotlib, Seaborn

Operating Systems: Linux, Windows, Mac OS

System Software: GIT, AWS, IntelliJ, Eclipse, Pycharm, Jupyter

OTHER: Statistics, Algorithms (Rank-128 in Hackerearth algorithms - May to July 2020), Math - GRE: 317(Q-168)

WORK EXPERIENCE

Carl Vinson Institute of Government

Graduate Research Assistant *Aug. 2020 – Current*

- Work on ad-hoc requests, address the problems, create reports and dashboards using Qlik(QlikSense, Nprinting).
- Address the questions with deep dive analysis on huge amounts of data using Python, SQL, Excel and Qlik.
- Performing ETL, Data Modeling, Data Analytics, Data Science using Qlik Sense, Python

Apps Associates

Associate Trainee *Aug. 2018 – Jun. 2019*

- Implementing Oracle SAAS applications with modules spanning across Financials, Supply Chain and HCM. Implementing Oracle E-Business Suite 12.1+/12.2+ across several modules in Finance, Supply Chain, Procurement and Core HR.
- Developed Oracle Reports and Oracle Forms. Built complex Oracle SQL queries, PL/SQL programs and web pages using Oracle Apex. Created Views by building complex queries on multiple domains using Oracle SQL.

PROJECTS and RESEARCH: *Aug. 2019 – Jan. 2021*

- COVID contact tracing using Neo4j and Face recognition. This project helps in finding nth degree relations among people in O(n).
- Implemented A three step accident assistance: prevention, assistance, and response to avoid any delays in helping a victim using IOT, Android Studio, and Machine learning.
- YouTube Data Analysis using Hadoop.
- Performed Data ingestion, Data Storage, Resource management, Performing Statistical analysis and processing on both Batch and streaming data, Building Schema, Generating and performing operations on Datasets, Data Frames and RDD.
- Hands-on experience on Multiple Databases like Cassandra, PostgreSQL, Neo4j, MongoDB. Experience of Dealing with cloud storage systems(Amazon S3) along with Amazon EC2.
- Ability to solve hard SQL queries, build Data Lakes, build schema, conceptual understanding of Normalization and other database concepts along with parallel processing and distributed systems.
- Performed ETL, Data preprocessing, Exploratory Data Analysis and then performed different Regression and Classification techniques to compare performance of different models on different types of data sets.
- Implemented Strawberry detection system for assisting drones to pluck or manage them. Designed an image segmentation system using Python OpenCV Package.
- Applied local Binary patterns and Histogram of Gradients to train image features of 2400 forest images to create predictions for images to be palm or no-palm using random forest and SVM. Implemented Using OpenCV Package
- Implemented URL Classification into Malicious and Benign using WordtoVec method. Worked with 3.6M instances and achieved 88% accuracy with Random Forests and 92% accuracy with Convolutional Neural Networks
- Designed a Database along with a website to handle online food ordering from local restaurants
- Implemented Inter process communication with RPC, Multi-threaded Web Server, CPU Scheduler Simulator, Page Handling with different Page replacement algorithms in Linux.
- Conducted Research on Control Flow Integrity and potential drawback of different Mechanisms that implement CFI.
